**Art Unit: 1774** 

## **DETAILED ACTION**

Applicant's response filed on 11/13/2006 has been fully considered. The 35 UCS
 rejection has been withdrawn in view of Applicant's submission of Declaration
 Under 37 CFR 1.132.

2. Claim 11 is amended, and claims 1-20 are pending. (NOTE: Claims 11-20 are withdrawn from consideration as non-elected invention).

## Double Patenting

- 3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).
- 4. A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.
- 5. Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).
- 6. Claims 1-10 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 3 and 5-7 of U.S. Patent No. 7,049,047 B2. Although the conflicting claims are not identical, they are not patentably distinct

Application/Control Number: 10/736,078

Art Unit: 1774

from each other because current claims 1, 2, 3, 6 and 7 correspond to claims 1, 3, 5 and 7 in view of col. 7, line 1 of '047; current claim 5 corresponds to claim 7 in view of col. 10, line 36 of '047; and claims 8-10 corresponds to claim 6 of '047.

Page 3

7. Claims 1-10 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 13 of U.S. Patent No. 6,939,663 B2. Although the conflicting claims are not identical, they are not patentably distinct from each other because current claim 1 corresponds to claims 1 and 13 of '663, and the sulfated polymer in claims 1-10 corresponds to claims 1 and 13 in view of col. 6, lines 8-17 of '663.

## Conclusion

- 8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Betelhem Shewareged whose telephone number is 571-272-1529. The examiner can normally be reached on Mon.-Fri. 8:00AM-4:30PM.
- 9. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye can be reached on 571-272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
